**Oroville, CA** – Butte County officials announced the completion of an agricultural oil collection facility in the Biggs/Gridley area. Farmers in the southern portion of Butte County now have a convenient disposal option for used motor oil. The facility was made possible with a grant from the California Department of Resources Recycling and Recovery (CalRecycle) and in partnership with the City of Biggs.

This facility targets small farmers who don't generate enough waste oil to make it cost effective to hire a waste oil hauler to provide on-farm service. The new Ag Oil Collection Center is located at 2865 West Biggs-Gridley Road, Biggs (City of Biggs Public Works).

Butte County also operates an ag oil collection site at the Neal Road Recycling and Waste Facility, located at 1023 Neal Road. The former ag oil collection site located at Compton's Enterprises on Dayton Road is now closed. Customers who previously used that site are encouraged to use the Neal Road facility.
